

Dear Parents,

Maths Day is here! Wednesday March 23rd 2016.

Every year we hold a Maths day in school to celebrate the fun and achievements of all our children in this area of the curriculum. The day is based around having fun with Maths through play and games.

Each year group will attend a hall based session where they will enjoy fun activities through Maths and you are invited to join them during this session and have fun too! The rest of the day the children will be carrying out Maths based games and lessons in class with their teachers and teaching assistants. The children will also have a special treat in the afternoon when they will attend a magic show all based around Maths!

The children who attend our Nursery will have their own activities and Maths fun in the Early Years setting.

I know the children would really love for you to attend this special day, so listed below are the year group hall times in which you are welcome to join us.

Reception	9.10 - 9.40
Year One	9.40 -10.10
Year Two	10.10 - 10.40

I really hope you are able to join us.

Yours sincerely

Mrs K. Seales
Numeracy Subject Leader
